## **40" Class (40.0" Diag.) LED 5003 Series TV**

Clear Motion Rate (CMR) is Samsung's more comprehensive and accurate measure for how well an LCD or LED TV can display fast-moving images. Previously, motion clarity was expressed simply by the refresh rate, measured in Hz. CMR, however, takes into account all three factors that contribute to motion clarity: panel refresh rate, image processor speed and backlight technology.

## **Toshiba 40E220U 40" Class 1080P HD LCD TV**

Enjoy a stunning picture bursting with color and clarity with the 40-inch Toshiba 40E200U LCD HDTV (40-inch diagonal screen size), featuring a 1080p Full HD resolution that provides twice the pixel resolution of 720p HD models. It provides a number of convenient home entertainment options and key picture quality features, including DynaLight dynamic backlight control for deeper black levels and four HDMI digital inputs for simple high quality connection to cable/satellite boxes, DVD players and more. Plus, the HDMI ports feature fast InstaPort switching for quick changes from one source to another.

DynaLight automatically adjusts the backlight intensity based on the image content.

With the Gaming Mode function, you'll experience reduced game control delay and improved reaction time--perfect for PC gaming--and the Photo Frame capability with Auto Slide Show enables you to display slideshows of your favorite images when not watching TV programming.

Boasting a slimming tapered bezel and attractive front panel gradation, the new Horizon design creates a more modern, elegant appearance that also adds a subtle luminance to the logo to further its stylish appeal. Other features include MP3 playback via the integrated USB port, a PC input, and a removable stand.
