

DROID INCREDIBLE 2

Socialize with a sense of style

The Droid Incredible 2 by HTC is ready to party. Its sleek, all-black design will get looks, and front and back cameras can help capture a scene, start a conversation, or snap a self-portrait. You can record the night's most memorable moments in 720p HD video for sharing later.

A phone that's designed around you

HTC Sense™ lets you do more in fewer steps with a friendly experience that brings everything you care about right to the surface. You can easily make your phone your own and put everything exactly where you want it. FriendStream™ pulls together all your friends' Twitter,™ Facebook,® and Flickr® updates in one place. Here's an idea: Choose a People widget that lets you see everybody's latest updates and messages right on the home screen. You can also select a compact People widget that just shows their profile pictures.

Worth watching — and listening to

Your music and movies look and sound great on a 4-inch super LCD screen with SRS WOW™ HD surround sound. Get access to unlimited songs through V CAST™ Music with Rhapsody or tune in to the expert DJs on Slacker® Internet Radio. V CAST Video on Demand gives you on-the-go access to more shows and movies, including those available from BLOCKBUSTER On Demand.®

Invite friends to your own private Hotspot

Your phone turns into a 3G Mobile Hotspot, for up to five other Wi-Fi®-enabled devices. That just might make you more popular than ever.

The global-ready Droid Incredible 2 by HTC will keep you connected from Lima to London.
