Nokia E5-00

Discover more ways to stay connected with friends, family, business contacts and everyone important to you with the Nokia E5-00. It has everything you need to stay in touch with a variety of email and messaging options, while also helping you to take and share pics and videos, explore the web, connect through social networking, access work and personal email, navigate your day and more. The affordable Nokia E5 even manages to fit a full QWERTY keyboard into its compact, eye-catching design for quick and easy messaging on the go. Plus, there are plenty of features to make it the perfect business-focused device. Stay productive and stay in the loop with work no matter where you are with simple setup and access for your corporate email account. The Nokia E5 makes communicating with work a breeze with Mail for Exchange, the free, direct and secure corporate email solution that offers a robust desktop-like email experience right on your phone, with email, calendar, contacts and more. Plus, your work email shows up on your phone instantly, so you don't have to wait for important emails. The Nokia E5 also features a fully integrated Microsoft Communicator Mobile client, to provide your mobile device the same great IM, contacts and usability that you enjoy on your computer. Keep in touch however you like with a variety of ways to connect to others with the Nokia E5. The home screen offers an easy visual way to view your contacts and makes it easy to organize the people you talk to most. The Nokia E5 also features one-click access to messaging as well as easy email setup and support for plenty of popular personal email services. The leading IM services have also been seamlessly integrated onto the phone. The Nokia E5 also offers free voice-guided navigation from Ovi Maps so you always know where you're going. Plus customize your phone with thousands of available apps from Ovi Store. Connect with everyone and everything you want with the Nokia E5.
