

Casio DR-210TM

DR-210TM Technical Specifications

Display

Digits	12
Type	Digitron
Special	Large Display

Printer

Speed - lines/second	4.4
Print Color	2 Color-Black/Red
Type	Ribbon
Ink Ribbon	RB-02

Features

Decimal Selector	Floating or fixed decimal 0,1,2,3,4,6
------------------	------------------------------------------

- Item Counter
- Independent Memory
- Printing Reference Numbers
- Tax Calculation
- Automatic Constants
- Independent Add Register
- Grand Total
- MU/MD
- Feed
- Right Shift Key
- Round Off
- Round Up
- Cut Off
- ADD Mode
- Cost/Sell/Margin

Paper

2-1/4 inch plain

Power

Type	AC
------	----

Unit Dimensions

Size (inches) H x W x L	4-3/10" x 8-2/5" x 15"
Weight oz/lbs	3.7 lbs

Casio FX-115ES

Number of Functions	279
Display	
2-Line Digit	Yes
Natural Textbook	Yes
Digits	10 + 2
Memory	
Store/Recall	Yes/Yes
Recall & Edit values	Yes
Number of independent memories	1
Number of constant memories	6
Features	
Operating system	S - V.P.A.M
Protective hard case	Yes
Clear last entry and clear all	Yes
Review & edit preview entries	Yes
Overhead Model Available	Yes
Fixed decimal capabilities	Yes
Multi-replay	Yes
Plastic Keys	Yes
Mathematics	
Metric conversions	Yes
Scientific notation	Yes
Parenthesis/Constant	Yes/-
Pi	Yes
Xth root	Yes
Fraction calculations	Yes
Complex numbers	Yes
DMS <> DD / P <> R Conversions	Yes/Yes
Trigonometry	
Sin, Cos, Tan, & Inverses	Yes

Hyperbolic Functions	Yes
Converts between DEG, RAD, GRAD	Yes
Statistics	
One/two variable	Yes/Yes
Mean, sum, # elements	Yes
Standard Deviation	Yes
Linear Regression	Yes
Log, ln, Inverse Log, Exponential	Yes
Store and edit data in memory	Yes
Quadratic, log, exp, power, inverse regression	Yes
nPr, cPr, x!	Yes
Random number generator	Yes
Calculus	
Complex number calculations	No
Numeric integration	No
Numeric differential calculations	No
Power/Unit Dimensions	
Power	Solar Plus w/Battery back-up
Auto Power Off	Yes
Battery	-
Size (H x W x L) Inches	Not available
Weight (ounces)	Not available

Casio PRIZM fx-CG10

High-resolution color LCD with  PRIZM fx-CG10 full textbook-style display

The color LCD offers full textbook-style display with the highest pixel resolution* (82,944 dots) and widest color reproduction* (65,536 colors) of any calculator. PRIZM™ comes with high-resolution fonts up to 18x24 dots (including blank dots), to enable equations and text to be displayed just like they appear in textbooks. The Blanview LCD delivers superior visibility and low power consumption, enabling color display with an estimated run time of 140 hours on four AAA-size alkaline batteries.**

*As of October 7, 2010, for the pixel resolution and color reproduction of calculators. According to a survey by Casio Computer Co., Ltd.

**Using repetition of the following one-hour sequence: Menu display for 5 minutes, Run-Matrix mode calculation for 5 minutes, flashing cursor in Run-Matrix mode for 50 minutes. Based on default settings for display brightness and auto power off. (Refer to the Specifications for exact settings) 

Picture Plot enables learning from real-life pictures

Picture Plot enables users to create their own graphs over pictures displayed on the color LCD. PRIZM™ comes with 55 types of color pictures that users can create graphs over, such as a picture of the parabola of jets from a water fountain and an image sequence of a clock's pendulum movement. Users can perform regression calculations from the completed graphs to enhance their understanding of math functions. **Multitude of functions that leverage the color LCD**

Colors can be added to a multitude of graphing objects including dotted lines, circles, and bars, as well as grid lines on graphs, labels of coordinate axes, and coordinate values displayed during tracing. The Color Link function links the colors used in graphs to the designated values in the spreadsheet screen, to aid the visual comprehension of trends and changes in values. PRIZM™ automatically color-codes brackets when entering equations with multiple brackets, as a visual aid to facilitate the entry of complex equations.
